***VOTING HISTORY EXPLANATION**

The five-year VOTING HISTORY is an UNOFFICIAL record. However, official documentation may be obtained from the county clerk in the voter's county of residence at the time of the election in which the voter voted. Each record contains the voter's five-year voting history. When a person registers to vote and is placed on the Kentucky voter registration file, a five-year voting history is established. For instance, if a person registered to vote on January 11, 2015, and has his or her information entered into the system, then the system immediately established a voting history for the voter. The voting history would appear as shown below:

15001600180019002000

2017 is a "NO scheduled election" year

In this example, the number "15" indicates the first election year in which the voter is eligible to vote. Each subsequent underlined number indicates years in which an election will be held. A zero represents every primary and general election. Once a voter has cast a ballot and signed the precinct roster, a "1" replaces the zero representing the election. If the voter voted in the general election of 2015, but not in the primary, his or her record would appear as follows: 15011600180019002000. NOTE: Kentucky has a "NO scheduled election year" every four years. The first "NO scheduled election year" was 1997.
