**Narrative Explanation of County Plan:**

Our plan is to have ten polling locations. These ten will all be county wide polling locations (aka super polls). We spaced the locations out not only geographically but also based on where the population is located.

Boone County has 68 esca machines. We are reserving 15 for absentee voting, 8 for early voting and holding in reserve 5 for spares. This would use up 28 machines. That leaves us 40 machines to use on Election Day. We distributed the 40 based on the amount of voters per area and by population. We will have also have 1 estate per poll.

We are going to use 160 poll workers over the 10 super poll locations. We are also going to use at least 3 deputy county clerks at each location for support. So that will be at least 190 people helping with the election on Election Day.

The amount of voting stations (places the voters can stand or sit to bubble in their ballot) is based on the number of machines and voters (see attached page).

Boone County will use any unused eScans machines (ones not used from absentee or early voting) and place them at any of the 10 locations.
