Narrative Explanation of County Plan:

I would like to be able to just have one location for the general election.
I used a large building at our 4-H grounds in the primary and even though
i realize that this will be a much larger turnout i believe this building
will accommodate the voter's of the county. In the primary we had 2 e-poll
books, 21/22 areas that voter's were able to sit down after they signed
in and mark their ballot then proceed to the back hallway to place their
ballot in the scanner and leave the building by the back door. This
worked really well for our county and we did not at any time have more
than 5 people in line. As i said though i do realize this will be a larger
turnout but my plan is to have a total of 6 e-poll books, i have 3 of the
Verity Scanners that i was given in the primary i would like to have
5 more if possible and that way i can put 6 scanners in the room (they won't
even be close to each other) this room is totally separate from the rest

If Yes, Please Explain Amendment: _____

Narrative Explanation of County Plan:

Voter's would be able to leave by the back door and there would be two
precinct officer to make sure that a ballot did not leave the building.

Our county has the cong dist split as well as city voter's for city
commissioner's, school board and soil and water conservation since i have
city voter's and me trying to send them to a certain precinct to vote i
think it would be easier it i could just have one location. This location
has ample parking, handicap accessible, secured by iron gates and lighting.

There is also a building that is adjacent to the main one if inclement
weather moves in that can handle the voter's if needed.

Thank You for your consideration and all the help that is given to the
Clerk's.

Respectfully,

Linda S. Barnes Harrison COounty Clerk
