

November 3, 2020 General Election In-person Voting Location Plan

County: Warren Total Pages in Plan: 7

*** Please fill out this page and the accompanying form (feel free to make copies if necessary). If you feel any attachments (maps, photos, etc.) will be useful in showcasing your plan, please attach those as well. ***

Is This an Amendment to an Existing Plan? Y N

If Yes, Please Explain Amendment: _____

Narrative Explanation of County Plan:

Warren County's plan includes one centrally located voting center for early voting
and six voting centers for Election Day. These voting centers will allow voters to choose
any of the six locations most convenient for them on Election Day. We anticipate a larger
turnout at our centrally located center, and we are planning accordingly with extra
staffing and equipment.

With a 100% turnout of 85,800 voters we believe the breakdown of voting methods would
look similar to the following:

-25,000 mail-in requests (the same number we had in the Primary Election)

-12,500 early voters from October 13th-November 2nd (this number has been estimated
based on the feedback we have received from voters)

-48,300 voters on Election Day (approximately 8,000 voters per location)

Realistically, we believe Warren County will only have a total turnout of 70%, which would
equal approximately 60,000 voters (continued)

Warren County General Election In-person Voting Location Plan (Cont'd)

With the same number of early and mail-in absentee requests, this would equal a total of 22,500 voters on Election Day. This would be a total of 3,750 per location which is only slightly more than our turnout on June 23rd.

During the Primary we had one location open at the Phil Moore Park gymnasium. We had 10 clerk/ballot stations, 60 Poll Star Voting Booths, and the ability to add more throughout the day if the need arose. This flexibility meant we could comfortably assist 8,000-10,000 voters. In addition, we had a voter services area where voters could be redirected if they required extra assistance. This prevented any issues from slowing the movement of voters through the line. In the end, our in-person turnout was 3,400. Our feedback from voters who voted in-person on Election Day was very positive.

The locations we have chosen for November have ample parking and are large facilities that can house the same number of voting stations we supplied our voters in June. Attached you will find the layout used at our June 2020 voting location. A similar layout will be used at all six locations in November. In addition, we are supplying visuals of five of our six locations. Finally, we have included a map of the county with the location of all six locations.

Facility Name/Type <small>*Please Note Which Facility Will Serve as County-wide Voting Center*</small>	Address	Type & Number of Voting Machines	Number of poll workers needed to staff
