RE: County Election Plan

To Whom it May Concern:

Barren County Board of Elections recently met and decided that we will continue with the same election plan for the November General Election that we used in the May Primary, this plan utilizes the same consolidated voting centers used previously.

We have one ballot drop box location for the county. This location is securely located within the entrance area of the Barren County Government Center, and it will be available Monday through Friday, 8:00am-4:30pm. This location does provide 24-hour surveillance.

Excused in-person absentee voting will remain at the Barren County Clerk's Office as we have done previously, and no-excuse in-person absentee voting will be held at the Barren County Extension Office which is located at 1463 West Main Street here in Glasgow. This location has also been used previously and has become a favorite location for the voters of Barren County.

Sincerely,

A handwritten signature in blue ink, appearing to be "H. Birdwell", is written over the printed name.

Narrative Plan *(please attach additional sheets if needed)*

1.) Why is this consolidation of these precincts desirable?

☒ This is the same plan used in the last election

In Barren County, the voters really enjoy the ability to go vote at any one of the locations that we have available. By consolidating the precincts, we are able to obtain enough poll workers and we are able to save the County money.

2.) In what manner will Precinct Officers be assigned?

☒ This location will be fully staffed with election officials

We will have a Clerk assigned for each poll book, we have the judges assigned to tear the ballots (or to assist with the print on demand stations) and the sheriffs will be with the Verity Scan machines. We do our best to have equal number of Republican and Democrat workers. Each poll worker will attend election worker training prior to Election Day to ensure they are trained and that they understand their task for the day.

3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?"

The voters will be notified by mail this election due to the recent redistricting and in order to be in compliance with the KRS, but we will also inform our voters through all possible media sources. This includes but is not limited to: radio, local news sources, print media, social media, etc... We are using the same vote centers that we have used for the last several elections, so the voters are used to these locations.

4.) How will the voting location serve as a focal point to meet the needs of a diverse community?

This voting location is a location that the majority of the residents are familiar with. It's large and accessible (ADA compliant). We are able to easily accommodate large groups and keep the crowd flowing, which helps to keep the line to a minimum.

| In Barren County, the voters really enjoy the ability to go vote at any one of the locations that we have available. By consolidating the precincts, we are able to obtain enough poll workers and we are able to save the County money. |
| 2.) In what manner will Precinct Officers be assigned? <input checked="" type="checkbox"/> This location will be fully staffed with election officials |
| We will have a Clerk assigned for each poll book, we have the judges assigned to tear the ballots (or to assist with the print on demand stations) and the sheriffs will be with the Verity Scan machines. We do our best to have equal number of Republican and Democrat workers. Each poll worker will attend election worker training prior to Election Day to ensure they are trained and that they understand their task for the day. |
| 3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?" |
| The voters will be notified by mail this election due to the recent redistricting and in order to be in compliance with the KRS, but we will also inform our voters through all possible media sources. This includes but is not limited to: radio, local news sources, print media, social media, etc... We are using the same vote centers that we have used for the last several elections, so the voters are used to these locations. |
| 4.) How will the voting location serve as a focal point to meet the needs of a diverse community? |
| This voting location is a location that the majority of the residents are familiar with. It's large and accessible (ADA compliant). We are able to easily accommodate large groups and keep the crowd flowing, which helps to keep the line to a minimum. |
