ALL	14947

Narrative Plan (please attach additional sheets if needed)

1.) Why is this consolidation of these precincts desirable?
 This is the same plan used in the last election

2.) In what manner will Precinct Officers be assigned?
 This location will be fully staffed with election officials

Same as previous election. Except Added Print on Demand Eliminated need for check in clerks. 12 workers per day of voting at this center.

3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?"
 Advertised through local weekly paper for at least 4 weeks prior to Election. Facebook posts, and on our county clerk website.

4.) How will the voting location serve as a focal point to meet the needs of a diverse community?
 This voting center has been used for many years in Bourbon County, it is very familiar to voters from 6 precincts that normally used it before it was even a voting center. The location has received the most voters in previous 4 elections and is centrally located for residents.

4.) How will the voting location serve as a focal point to meet the needs of a diverse community? This location is the site that was previously used as a precinct voting location for the city of millersburg it is familiar to the voters from this part of the county. We expect that some voters from the two precincts that border as well as voters who work in Millersburg but live in another part of the county are expected to utilize this voting center.

<p>4.) How will the voting location serve as a focal point to meet the needs of a diverse community?</p> <p>The road from North Middletown to Paris is narrow and dangerous, so this center will be helpful for safety reasons. It will also be convenient for residents of the two precincts on either side of North Middletown. This will reduce the travel time for the residents of the far NE corner of Bourbon County who previously needed to travel about 17+ miles to get to the closest voting center that was used in the 2022 Primary Election.</p>
