Narrative Plan (please attach additional sheets if needed)

1.) Why is this consolidation of these precincts desirable?

This is the same plan used in the last election
 Voting Centers worked so well in the last election. We could have easily voted twice the number of voters. They saved money, time finding location, number of poll workers, finding place to park. There is plenty of park spaces and easy access to polls. Locations on each end of town provide easy access. Four to Five precincts could easily access either location

2.) In what manner will Precinct Officers be assigned?

This location will be fully staffed with election officials
 We have CHECK-IN CLERKS at door, six lines to SIGN -in CLERKS, and multiple ballot marking stations around the room divided in half for easy exit and scanning capability on each side of room. NO CROSSOVER ALLOWED. RESOLUTION CLERKS behind door check in clerks for problems to avoid long lines.

3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?"

We will use all means of notification - newspaper, facebook, twitter, and instagram. At 14 Four Precincts on each side of town can easily access polling location.

4.) How will the voting location serve as a focal point to meet the needs of a diverse community?

Six Paris Precincts are used to voting at the Legion Park. The High School is on the Opposite side of town on HWY 68. Everyone knows the locations. Major Highways intersect each side of town to serve the community.
