Precincts in Voting Location	
Precinct name	Number of registered voters
All 13 precincts	7617

Narrative Plan *(please attach additional sheets if needed)*

1.) Why is this consolidation of these precincts desirable?
 This is the same plan used in the last election

By utilizing county-wide voting centers, we can provide better facilities for the voters that are more accessible and much safer in terms of space to maintain a safe distance from other voters and poll workers. Our previous voting locations were small "voting houses" that now have cracked windows, cracks in the foundations, and poor sizing to accommodate the voters, precinct workers, and equipment safely without crowding.

2.) In what manner will Precinct Officers be assigned?
 This location will be fully staffed with election officials

We will use a total of 6 Precinct Officers per location, as opposed to the typical 4 per precinct. The officers will be assigned with an equal number of Republican and Democrat representation as well as representation from various precincts, with all precinct being represented with at least 1 precinct officer across our 3 county-wide voting centers.

3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?"

We will advertise via Social Media, local newspaper, local radio, and if the funding is available we will send a mail-out to all registered voters in the county to notify of the changes. We will advertise as county-wide vote centers.

4.) How will the voting location serve as a focal point to meet the needs of a diverse community?

This location, as well as the other 2 that will be available to voters, will provide ample space to safely distance voters from each other and from Precinct Officers. The Community Center is located at the center of Albany. This location is also much more handicap accessible than the previous "voting houses" used in our county.
