My county board and I have discussed opening all of our precincts for the 2022 election. Due to Covid, not enough voting machines and staff we did not have our 19 precincts open in 2020, we had two super centers open for all registered voter's in the county to go and cast their vote as well as early voting in my office. For the 2022 election we plan to open all 19 precincts as I am hoping to have the remainder of the machines I need. Also we do not want to have any super centers for this election since all precincts will be open. I plan to have the three day early voting in my office which is in the courthouse. We are looking at closing the clerk's office for any type of business for those other than early voting that way we will be able to utilize the whole office.

Respectfully,

Linda S. Barnes, Harrison County Clerk

Narrative Plan (please attach additional sheets if needed)
1.) Why is this consolidation of these precincts desirable? <input checked="" type="checkbox"/> This is the same plan used in the last election. Our office utilized this procedure last election with only one Verity scanner & it worked out well, this election I am using 2 Verity scanners
2.) In what manner will Precinct Officers be assigned? <input checked="" type="checkbox"/> This location will be fully staffed with election officials I plan to use my election officers for two days of early voting, myself & my staff will work the one day
3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?" Social media, local newspaper, local radio station
4.) How will the voting location serve as a focal point to meet the needs of a diverse community? Since the courthouse is centrally located in the middle of town I believe that it will serve the whole community.
