Narrative Plan *(please attach additional sheets if needed)*

1.) Why is this consolidation of these precincts desirable?

■ This is the same plan used in the last election

This is how the 2020 General Election was set up as well as prior elections. We can use less precinct officers than in the past when we had 36 precincts. Less staff is used to prepare the location since there are fewer locations. Due to these contributing factors the cost for the Fiscal Court is less to conduct an election than in previous years. We have purchased the new Verity scan/ADA machines to accommodate for voting centers which is less machines as well.

2.) In what manner will Precinct Officers be assigned?

■ This location will be fully staffed with election officials

We will have 4 poll workers allocated to every e-poll check-in station and we will strive for parity.

3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?"

Local newspaper, radio, TV, political headquarters, and our website. 4 x3 Signs will be used to designate each vote center

4.) How will the voting location serve as a focal point to meet the needs of a diverse community?

To meet the needs of an ever changing and growing community we want to use vote centers which are strategically placed to cover the Northern, Southern, Eastern, Western, and Central areas of Jessamine County. Vote Centers accommodate the voters by not limiting where they have to go vote. It makes it more convenient to those working who can vote wherever is closest to there destination. Our Locations were chosen because they provide areas to social distance and properly accommodate anyone with a disability.
