Narrative Plan <i>(please attach additional sheets if needed)</i>
1.) Why is this consolidation of these precincts desirable? <input checked="" type="checkbox"/> This is the same plan used in the last election
This is how the 2020 General Election was set up as well as prior elections. We can use less equipment and the equipment we used can be used to its best advantage. Please see the attached explanation
2.) In what manner will Precinct Officers be assigned? <input checked="" type="checkbox"/> This location will be fully staffed with election officials
We will have 12 poll workers: 6 clerks, 3 judges and 3 sheriffs. We will strive for parity.
3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?"
Will send individuals postcards. We will update website, Facebook and work with local media
4.) How will the voting location serve as a focal point to meet the needs of a diverse community?
The goal is for each city to have a location to vote. Some cities will have more than one location because of geography, size or transportation needs. The 5 early voting location will have print on demand ballots so if a voter goes to the wrong location they can still vote.

Narrative Plan <i>(please attach additional sheets if needed)</i>
1.) Why is this consolidation of these precincts desirable? <input checked="" type="checkbox"/> This is the same plan used in the last election This is how the 2020 General Election was set up. We can use less equipment and the equipment we used can be used to its best advantage. Please see the attached explanation
2.) In what manner will Precinct Officers be assigned? <input checked="" type="checkbox"/> This location will be fully staffed with election officials We will have 6 poll workers. 2 clerks, 2 judges and 2 sheriffs. We will strive for parity.
3.) How will the voting location be publicized to voters? How will the location be noted as a "Vote Center?" Will send individuals postcards. We will update website, Facebook and work with local media
4.) How will the voting location serve as a focal point to meet the needs of a diverse community? The goal is for each city to have a location to vote. Some cities will have more than one location because of geography, size or transportation needs. The 5 early voting location will have print on demand ballots so if a voter goes to the wrong location they can still vote.
