Introduction

Regardless of how your County Board of Elections has set up your county's Election Plan, all election laws remain in force.

This guide is designed to accommodate Election Plans for all counties.

Terminology:

- Precinct: a single area within a county that will cast ballots at one location on Election
 Day. (Example: A101----Smithville Precinct---Located at Smithville Elementary School;
 ONLY Voters who live in the Smithville Precinct can vote here)
 - There can be more than one precinct operating at a location; however, each precinct must have its own set of workers and separate set of voting machines
- Consolidated Location: a combination of two (2) or more precincts put together with the intent of sharing election equipment and Election Officers on Election Day. <u>ONLY voters</u> who reside in the combination of these specific precincts will cast a ballot in this polling location.
- **Vote Center**: a location where any voter in the entire county can vote on Election Day. *Machines are set to handle ballots for all possible voters.*
- Polling location: the place in your county where people vote. This can be a Precinct, Consolidated Location, or Vote Center. For Vote Centers, this would be the identifying name for purposes of records.

For the public, the *precinct* level will still exist in every county, no matter the plan. It is the basic building block of how a voter is assigned to a specific ballot-style (who they vote for). A *Vote Center* is set to allow for a combination of every precinct within a county and will be broken down to the precinct level in the end.

Thank you for serving your community, as well as, Democracy!

County Board of Elections (KRS 117.035):

 The County Board, at the direction of and under the supervision of the State Board of Elections, shall administer the election laws and the registration and purgation of voters within the county.

• County Board consists of:

 The County Clerk who shall be the Chair of the Board and shall have an extra vote to break a tie in matters that come before the local Board of Elections. The County Clerk may name a replacement in a year they are on the ballot (though not required).

- The County Sheriff who serves unless they are on the ballot in an election year, in which case, they MUST designate a temporary replacement.
- One (1) Democrat and One (1) Republican appointed by the State Board of Elections based on the submission of a list of candidates from each of the local Democratic and Republican parties.

• The County Board shall meet:

- At least once every other month during years in which a primary or regular election is scheduled, or upon written agreement of two (2) or more members of the board;
- During years in which no primary or regular election is scheduled, at any time by call of the chair, or upon written agreement of two (2) or more members of the board;
- And stay in session on primary, regular elections, and special election days to correct clerical errors, to rule on questions regarding voter registration, proof of identification, and the curing of signatures relative to mail-in absentee ballots and may make to the Election Officers such certifications as may be necessary.
- The County Board of Elections must by March 20th of the year in which an election takes
 place appoint Election Officers to work the polls for the County (KRS 117.045(1)(a)). The
 board and its members are responsible for appointing, training, assigning, and overseeing
 election workers.
- The County Board shall, not less than ten (10) days before the next ensuing election, send to each election officer written notice of his or her appointment. KRS 117.045(7).

Facts You Should Know about Elections in Kentucky

- 1. County Fiscal Courts pays for all election expenses in their counties. KRS 117.345.
- 2. Election Plans (petitions) regarding the locations of consolidated precincts and vote centers are developed and approved by local County Boards of Election and sent to the State Board of Elections for review and approval. After the State Board votes to approve a petition, the Secretary of State may veto any plan, at which point it takes a ¾-majority vote of the Board to override the veto. If this does not occur, a county's petition must be amended or the county must revert to opening all precincts. KRS 117.066.
- 3. No voting machine in Kentucky is connected to the internet. This includes all of the machines that voters use to mark or cast their ballots on. KRS 117.125.
- 4. E-poll Books (EPBs) are used in every county to identify and check-in voters during all periods of voting. EPBs are connected to a secure network so that they can communicate instantaneously; this allows for a security check prohibiting voters from voting more than once, while allowing the Clerk's Office to monitor the polling location in real-time. It is important for these EPBs to be connected to a secure network; however, if there should be a time when a polling location loses

- signal, the EPBs continue to function, and voters can still be checked in. When the EPB connection is restored, the EPBs will synchronize.
- 5. All machines are tested and inspected by the County Board of Elections and an accuracy board before being delivered to the polling locations. Any candidate, one (1) representative of each political party having candidates on the ballot, and the news media may be present when the County Board examines the machines. Once the inspections are completed, the machines are locked and sealed. Election Officers will break those seals the first morning of their use in an election. KRS 117.165

Becoming an Election Officer & How to Prepare

How you came to be an Election Officer may vary. KRS 117.045 outlines the procedures for selecting an Election Officer. The County Board of Elections, not later than March 20th each year (except in a year in which no primary and regular elections are scheduled), appoints Election Officers from a list provided by the political parties, or

Per KRS 117.045(9), Kentucky Election Officers shall be:

- A qualified voter of the precinct; except that, where no qualified voter of the required political party is available within the precinct, the election officer shall be a qualified voter of the county;
- A minor seventeen (17) years of age who will become eighteen (18) years of age on or before the day of the regular election may serve as an election officer for the primary and regular elections in which he or she is qualified to vote; however, no precinct shall have more than one (1) person serving as an election officer who is a minor seventeen (17) years of age;
- 3. An election officer shall not be a candidate for office during the election year;
- 4. An election officer shall not be the spouse, parent, brother, sister, or child of a candidate who is to be voted for at the election in the precinct in which the election officer will serve on election day; and
- 5. An election officer shall not have changed his or her voter registration party affiliation after December 31 immediately preceding his or her appointment to serve for the primary, or after the second Tuesday in August to serve for the regular election.
- 6. An election officer may be removed, for cause, at any time up to five (5) days before an election.

What to know before you go...

1. Read this manual and any other training guides that will be given to you before going to work at the polls. Election Officer Training is limited in time so it is ultimately up to you to prepare yourself for working at your polling location.

^{*} Per KRS 117.045(4)(f), while Election Officers are required to be qualified, registered voters, they are not required to be registered with either of the two political parties. (Independents or Other)

- 2. If you are working during the Excused, In-Person Absentee Voting period (6-day), or the No Excuse, In-Person Absentee Voting Period (3-day), you will be told where and when you will need to be there. During this time, remember, all regular election laws apply.
- 3. Remember that Election Day is a very long day, and that you must remain at the polling location from at least 5:30 AM (some County Boards of Elections may require that you be there earlier) thru the time in which every machine is closed and all election equipment is secured or picked up (each County Board of Elections or County Clerk will provide specific instructions on the end of the night procedures).
- 4. In advance, make sure that you have everything that you will need while you are working at the polling location. Again, you cannot leave during any part of the day.
 - a. Make sure that you have something to eat and drink for the day.
 - b. Make sure to bring any medications you may need for the day.
 - c. Make sure that you have voted prior to Election Day if you are working in a polling location that does not include the precinct where you live.

 (Best Practice vote before you work on Election Day).
- 5. Know where you are working on Election Day or if you are helping with In-Person Absentee Voting. You should know the location and the entrance to where you are going in advance so that you can be on time and ready to go.
- 6. Last, but certainly not least, get plenty of rest the night before Election Day. Again, it is a very long day, and you need to be at your best.

Note: You or another worker may be asked to pick up a key for the Voting Location Facility and/or a key to the Voting Machine(s) prior to your working. The County Board of Elections or Clerk's Office may have staff that handle this; however, they will make you aware of this during training or prior to Election Day.

- 1. If you are given any keys to handle, you must maintain those, keeping them in your possession at all time for security purposes.
- 2. With these keys comes a great responsibility, as you will be the one that has to be there for the polling location to open. Remember this!

Be Prepared...Be Rested...Be on Time or Early...

ONLINE PORTAL FOR MAIL-IN ABSENTEE BALLOTS

KRS 117.085 describes how most voters can request a mail-in absentee ballot by using an online portal operated by the State Board of Elections that becomes active 45 days before an election. Using this portal requires the voter to enter some personal information at www.GoVote.KY.Gov for verification and security purposes. If a voter does not have the means or the ability to use the online portal, they can call their County Clerk's Office and give their information over the phone and have their data entered into an online system.

Voters who are eligible to request a mail-in absentee ballot must be:

- 1. A resident of Kentucky who is a covered voter as defined in KRS 117A.010;
 - a. A KRS 117A.010 voter is a uniformed-service voter or an overseas voter who is registered to vote in the Commonwealth of Kentucky.
- 2. A student who temporarily resides outside the county of his or her residence;
- 3. Incarcerated in jail and charged with a crime but has not been convicted of the crime;
- 4. Changing or has changed his or her place of residence to a different state while the registration books are closed in the new state of residence before an election of electors for President and Vice President of the United States, in which case the voter shall be permitted to cast a mail-in absentee ballot for electors for President and Vice President of the United States only; (PRESIDENTIAL ONLY BALLOT ISSUED)
- 5. Temporarily residing outside the state but still eligible to vote in this state;

- 7. A participant in the Secretary of State's crime victim address confidentiality protection program as authorized by KRS 14.312; or

8. Not able to appear at the polls on Election Day or the days excused, or no-excuse inperson absentee voting is conducted on the account of age, disability, or illness, and who has not been declared mentally disabled by a court of competent jurisdiction.

The request process must be completed 14 days prior to an election unless the applicant is a military/ overseas voter who has until 7 days prior to the election to complete this process (this request should come in the form of Federal Postcard Application (FPCA). These voters should be going to www.GoVote.KY.Gov, where they can complete the FPCA online through the portal. All ballots must be mailed out or sent within 4 days of receiving the request. Only ballots received no later than 6:00 PM on Election Night are eligible to be counted; Kentucky doesn't have an extension period for mail-in ballots.

Machines operated for this type of voting will be used over the course of the six (6) day period. At the end of each day, follow the instructions provided by your vendor and remember to power down the scanner machine that holds all of the voted ballots. *REMEMBER DO NOT CLOSE THE POLLS ON THESE MACHINES AND PRINT RESULTS.* The Clerk's Office or County Board of Elections will have you securely store these machines at the end of each night of voting. No election results will be released until after 6:00PM on Election Night.

Form SBE 79 should be verified and completed each day (SEE PAGE 18). Clerks may use other forms for accounting for these numbers and seals in addition to the SBE 79.

During the 6-day Excused, In-Person Absentee Voting period, voters will be checked-in on an E-poll Book and will fill out an SBE 44E form attesting to the reason that they are required to vote early. The Clerk will retain this paper copy printed from VRS for 22 months after the election.

3-Day No-Excuse In-Person Absentee Voting (Commonly Referred to as "Early Voting")

KRS 117.076(1) - Any voter who is qualified to vote on Election Day in the county of his or her residence may choose to cast a no-excuse in-person absentee ballot on the Thursday, Friday, or Saturday immediately preceding the Tuesday of an election. The available hours from which a voter may cast his or her vote during these three (3) days are to be no less than eight (8) hours between 6 a.m. and 8 p.m. prevailing time, as determined by the County Board of Elections of each county.

*PRESIDENTIAL ONLY BALLOT may be issued during 3-day No Excuse, In-Person Absentee Voting: This is for a voter who is changing or has changed his or her place of residence to a different state while the registration books are closed in the new state of residence before an election of electors for President and Vice President of the United States, in which case the voter shall be permitted to cast an absentee ballot for electors for President and Vice President of the United States only.

- Voter must complete a SBE 44P form after signing the E-Poll Book.
- The Voter is then issued a "PRESIDENTIAL ONLY BALLOT" with just the race for President and Vice President on it.

Supporting Regulation: 31 KAR 5:026E See Sample SBE 44P on Page 14

Again, the County Board of Elections will decide where and when No-Excuse In-Person Absentee voting is to take place. All Kentucky election laws are to be followed just as they are on Election Day. Election Officers who have concerns or questions at any point while working **SHOULD CALL THE CLERKS OFFICE AND GET GUIDANCE.**

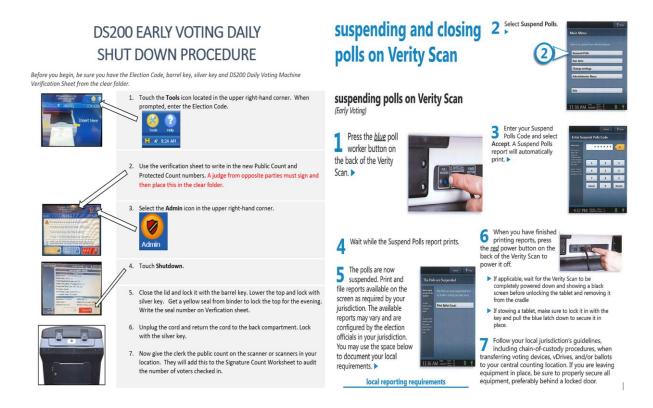

At the end of each day of voting, follow the instructions provided by your Clerk or equipment vendor to power down the scanner machine that holds all the voted ballots:

REMEMBER DO NOT CLOSE THE POLLS ON THESE MACHINES AND PRINT RESULTS.

The Clerk's Office or County Board of Elections will have you either securely store these machines so that they can be used on the following days of voting or put them aside to be transported to a secure location and closed-out on Election Night ONLY. No results will be released until after 6:00PM on Election Night.

If the voting machines will be used for more than one day, you should power off each machine at the end of the day using the machine instructions and store the devices in a secure location within the facility. Remember that Form SBE 79 and SBE 76 should be verified and completed each day (SEE PAGES 18 AND 19). In addition to these forms, Clerks may use additional pages in accounting for the number of ballots and recording seal numbers (though these pages should still be attached to the SBE forms).

Critical: Make sure to use the machine instructions provided to you during your training.

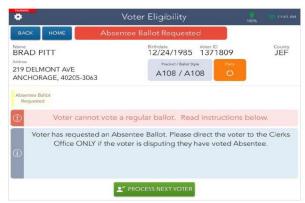

Tip: When the E-poll Book is started in the morning (if your E-poll Book is properly connected --please refer to your E-poll Book training manual provide by your vendor), all voters who have requested an absentee ballot by mail or voted during the 6-day excused and 3-day no excuse, inperson absentee period will display as having already voted on the EPB device. To double-check, the Clerk's Office can give you a voter to lookup or one of the Election Officers who have voted early may check their license to see if they get the notice that they have already voted. If there is a connectivity issue in the polling location then, the Clerk's Office will instruct you on how to proceed. **REMEMBER FOR ANY ISSUES, CONTACT THE CLERK'S OFFICE OR THE LOCAL BOARD OF ELECTIONS!**

All Election Officers should arrive at their polling location no later than **5:30AM** (again, the Clerk's Office may require you to be there earlier). Election Officers may be assigned as:

- 1. Election Clerks;
- 2. Election Judges; or
- 3. Election Sheriffs.

Remember you are all on the same TEAM when working as an Election Officer

No matter your county's Election Plan, these positions will work together as a NON-PARTISAN TEAM to get voters in and out of the polling location as quickly as possible while upholding all election laws.

Things to Remember:

- 1. As an Election Officer, you should not wear anything that supports or opposes a candidate, party, issue, or question during the time you work.
- 2. You should not discuss candidates, issues, or political philosophies while working as an Election Officer. THE WEATHER OR TRAVEL IS OKAY TOPIC ©
- 3. Throughout the day, you have specific duties associated with your position; however, you may be called on to help with another position, so make sure you have an idea of other jobs throughout the day. Someone is going to have to take a break or eat a sandwich, and you may need to fill in for them.
- 4. Security is everyone's job. Be watchful of the polling location, machines, and supplies throughout the day. If you see something, say something, and document anything irregular.
- 5. Be respectful of your fellow workers, and if any problems arise, call the Clerk's Office or your County's Board of Elections.

ELECTION SECURITY PLAN AT THE START AND THROUGHOUT THE DAY

Election Day security is largely in your hands. Each county must have a security plan in place. Your County Board of Elections must train you on your county's procedures to ensure security of the voting equipment and election materials. Below are procedures to follow in every county to ensure security.

Machine Delivery

The County Clerk must deliver the machines and all voting supplies to the polling locations at least one hour before the polls open. The county should designate a secure location within the polling location for the storage of these items until your arrival. Make sure you know where to find your election materials if you do not already have them.

MACHINE PLACEMENT

After you have inspected all equipment and supplies ensuring they are ready for use, begin the setup of each polling location. The following must be guaranteed:

- Voters should not be able to access the voting devices' power control, counter controls, and results storage media.
- You should maintain control of all administrator and ballot activation devices.
- You should verify date, time, and Precinct(s) or Voting Center Location on the voting devices.
- Voting booths should be setup to allow voters privacy to cast their ballots.

Both the polling location and the ADA Accessible Voting Machines or Ballot Marking Devices shall remain accessible to all voters with disabilities.

PAPER BALLOTS AT THE POLLING LOCATION

- If your county uses preprinted paper ballots, you must count and verify the number of ballots you have received on the proper forms.
- Ensure that you secure all paper ballots throughout the day. Do not leave a stack of ballots unattended at any time during the day or allow voters access to the paper ballots unless voting a ballot.
- If you have a Ballot Print on Demand device in your precinct, make sure you allow only authorized Election Officers to use it and account for all ballots that are printed at the polling location. Make sure that you know how to properly use these Print on Demand devices to give the voters their correct ballots. Also, you must know how to periodically check that the number of ballots you have printed match the check-ins from the E-Poll Book as well as the ballots cast on the machines. (Ask at your training how to perform this check.)

POLLING LOCATION AND SECURITY PROCESS

You should always secure the area around the voting devices.

Only Election Officers, other legally authorized personnel, and registered voters waiting to vote should be allowed in this area. Each Election Officer should have a clearly defined role so voters are able to identify the Election Officers and their particular responsibilities.

- The Judges should maintain control of any ADA Accessible Voting Machine or Ballot Marking
 Device and, if used by the voter, only issue the device when a voting machine is available for the
 voter's use. DON'T get too many people in the que line to vote waiting on a machine, because if
 someone should leave after being checked-in, they would not be allowed to vote if they came
 back.
- Election Officers must be vigilant to make sure the voting devices have not been damaged or tampered with by checking the equipment periodically throughout the day.

You should occasionally compare the following:

- The number of votes recorded on the scanning devices (DS 200 or Verity Scan).
 - VS.
- The number of signatures in the E-Poll Books and any form SBE 25, Supplemental Precinct Signature Roster that might exists (all signatures are captured on the E-poll Book unless there is an unforeseen emergency issue with the E-Poll Book).

If these numbers do not match, the Election Officers must IMMEDIATELY contact the County Clerk or Board of Elections to alert them and get instructions on steps to take to double check the numbers and documentation to prepare!

Important security concerns may be avoided if you do the following:

- Arrange the voting machines or privacy booths so that the flow of traffic is not passing behind the voters as they are casting their ballots.
- Manage the flow of voters within the polling area so that lines are minimal and occur at the registration table and not at the machines.
- Do not let voters sign the E-poll Book until a voting booth or device is ready if they are using a machine. Do not let a line develop at the voting device. Keep the line at the registration table.
- Wear identification tags so that the voters will recognize you as being an Election Officer at the polling location and your fellow workers will know who you are.
- Call the County Clerk immediately when a problem occurs.

PERSONS ALLOWED IN THE VOTING ROOM (KRS 117.235)

Kentucky law is very specific about who may be in the voting room during the hours the polls are open for voting. The only persons who may legally be in the voting room are:

- Election Officers
- Voters
- Anyone assisting a voter
- Voting machine technicians allowed by the County Board of Elections
- A minor may accompany the voter into a voting booth or other private area provided for casting a vote, at the voter's discretion
- Duly appointed challengers who have presented their written appointment
- Law enforcement officers federal, state, and local; and
- Members of the news media for the limited purpose of filming the voting process.
 - The media may not conduct interviews with voters inside the voting room, record the identity of voters, or disrupt the voting process. If the news media appear, you should immediately contact the County Clerk's office or the County Board of Elections

During the hours the polls are open, unless they are in the voting room to cast their own votes or assist a voter, the following individuals may not be in the voting room:

- Candidates and/or their family members
- Campaign workers either for a candidate or for a question on the ballot
- Exit pollsters
- General "onlookers" or "well-wishers"
- Members of political parties, political organizations, or political groups who are not duly appointed challengers; and
- Any other individuals not listed in the section above

The election Sheriff should require unauthorized persons to leave. If they fail to leave when requested or if persistent violations occur, these violations should be reported to the County Clerk. All violations are reported on form SBE 53, Precinct Sheriff's Post-Election Report (SEE PAGE 41).

If an emergency occurs or someone escalates a situation that puts you, your fellow election officers, or the voters in danger, contact law enforcement immediately and with the help of one of your fellow workers, make the County Clerk's Office or your County Board of Elections aware of the situation.

*County Clerk's Offices or the County Board of Elections should also notify the State Board of Elections of any major irregular issues (examples- any court procedures, issues that involve law enforcement, etc....) that occur during any period of voting as soon as possible.

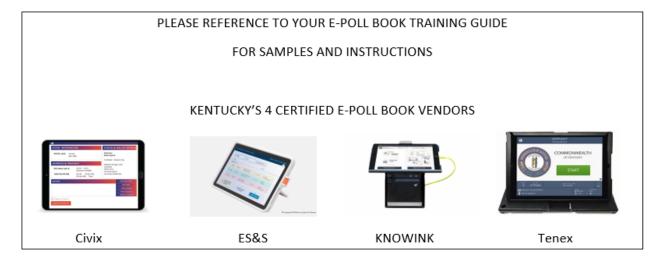

Getting Started (Who Does What and When...)

Your polling location must open at 6:00 a.m. local time. Again, please arrive at the polling location no later than 5:30 a.m. to allow enough time to prepare for the 6:00 a.m. opening.

<u>Best Practice</u>: If you are working a_Standalone Precinct, you can get started with at least three Election Officers. Vote Centers or Consolidated Locations should start when ¾ or 75% of their Election Officers are present. Voting Centers or Consolidated Locations may want to arrive earlier than 5:30 a.m. due to the amount of equipment needing to be setup and/or prep time to be open by 6:00 a.m.

Different E-poll Books for each County:

The General Assembly passed legislation in 2022 to create a certification program that allows any E-poll Book vendor to have their products certified and then sold in the Commonwealth. As of January 2023, Kentucky had four (4) certified E-poll Books eligible to be used by counties. Throughout this guide, any sample images or instructions for the E-poll Books will refer to instruction booklets that will be provided by your County Clerk or E-poll Book vendor during your Election Officer training. Election Officer Clerks will be responsible for knowing how to setup and use the E-poll Book for checking in voters during voting times.

Election Clerks, Do This to Start the Morning:

- 1. Locate your E-poll Book and supply bag.
- 2. Setup your E-poll Book; <u>use the instruction booklet that is provided to you in Election Officer's class or notes from your specific training on the device</u>: (Tip: Have a surge protector strip to plug all your devices and machines into; this gives you some protection from a power surge. Also, some locations may have battery backups for you to use in cases where the power may go down.)
 - a. Locate your MiFi, Cradlepoint, or plum case device (if applicable) and plug it into a working power outlet, and power it on per instructions provided;

- b. Open your E-poll Book, plug it into a working power outlet, and power it up.
- 3. After the E-poll Book is ready to go, the Election Clerk(s) should locate their supply bag and go through the contents to organize their setup for the day.
- 4. Assist other Officers with setting up the polling location; verify and sign the zero tapes from voting machines (the paper printout showing no votes have been recorded).

Election Judges, Do This to Start the Morning:

- 1. Find the Election Officer who has the keys to open the voting machines or containers which allow the Election Officers to have access to the equipment and supplies for Election Day.
- 2. Setup voting machines to be used by the public at the polling location.
 - a. Vendors will provide step-by-step instructions on how to open, operate, and close all election equipment used during the voting process.
 - b. These instruction sheets or books should be used in your training while you are learning to use the vendor's equipment. The County Clerk's Office or the County Board of Elections should provide you with these documents during your local election training courses.
 - c. <u>Best Practice</u>: <u>One Judge should read instructions while the other performs the tasks taking their time to make sure everything is done properly.</u>

3. While setting up the voting equipment, you should be verifying that all seals, counters, and other identifying numbers match the verification sheets provided by the County Board of Elections. The County Board of Elections will have versions of the following form for you to use. These forms have been completed by the County Board during the inspection process and will list all the information that you will need to verify. If anything is different, immediately contact the County Clerk's Office or the County Board of Elections before proceeding. After receiving instructions from them, make sure your Election Sheriff documents what happened with the incident on SBE 53 Sheriff's Report (SEE PAGE 41).

- 4. After the voting machines are setup properly and all names and numbers are verified, you should have zero tapes that show that no votes are on any of the machines. Four (4) Election Officers (two (2) from differing political affiliations) should sign these zero tapes.
- 5. Make sure that voting booths are setup and spaced where a voter has privacy when they come in to vote (Best Practice if possible, set booths where no voter can walk behind someone who is marking their ballot; usually in a manner, where the voter's back is to a wall when they are marking their ballot).
- 6. Make sure and setup ADA voting devices in a manner that allows for easy access for anyone with disabilities and privacy for the voter. (Best Practice- if possible, set machines where voter has a wall behind them so other voters don't walk behind them while they vote.)
- 7. Prepare the area where proper paper ballots will be given to voters or where ballot on demand devices will be used. Count and verify any pre-printed ballots that you have been provided. Also, make sure, during your training course that you fully understand how this will work in your location so that your voters get the correct ballot (ASK QUESTIONS—DON'T ASSUME!).

Extra Tips:

- 1. Flow is everything. Make sure to visualize and setup your location so that the flow in and out of the polling location is seamless (the Clerk's Office will probably have this laid or mapped out so that all you must do is execute).
 - a. The Voter enters and proceeds to a check-in line.
 - b. Gets to a check-in desk,
 - c. Is identified and checks-in,
 - d. Is given their specific ballot or some slip that identifies their proper ballot,
 - e. Moves to a voting booth or to an area where they receive their proper ballot based on the slip, they were given at the check-in area (after which they go to a voting booth),
 - f. Fills in their ballot,
 - g. Then proceeds to the line to cast their ballot in the scanner,
 - h. They scan their ballot and get their "I Voted" sticker
 - i. Voter leaves the polling location.
- 2. If you are working in a Voting Center where anyone can cast a ballot in one location, you should consider having a customer service table where anyone who has an issue, needs assistance, or will be using an ADA machine, can go so that the constant flow of voters can move rather quickly.

Election Sheriff(s) Do This to Start the Morning:

- 1. Be the official timekeeper at the polling location. The Sheriff should, at the beginning of the day, decide to make their cellphone, watch, or other timepiece the official clock for the polling location. At 6:00AM, the polls should open according to this official clock.
- 2. Locate all election materials that should be displayed at the polling location and place them where the public can easily view them (SEE LIST ON PAGE 28).
- 3. Check outside of the polling entrance to make sure that no signs or other campaign materials are within 100 feet of the entrance to the polling location. If there are signs within the 100 feet barrier, contact law enforcement and have them removed.
- 4. Setup any ADA ramps, door handles, or parking signs. Make sure that the pathways through the polling location are clear.
- 5. Make sure that United States Flag is positioned at the entrance of the polling location.
- 6. Assist other Officers with setting up the polling location; verify and sign the zero tapes from voting machines. In addition, help Judges setup and organize any preprinted ballots.
- 7. Locate the "I Voted Stickers" to be passed out to voters after they have scanned their ballots after the polls open.

POSTERS AND NOTICES REQUIRED TO BE POSTED AT THE POLLING LOCATION

It is the duty of all Election Officers to make sure these posters and notices are posted in a visible area inside the polling place by 6:00 a.m. on Election Day (Typically, this will be one of the first things that an Election Sheriff will take care of).

*If you are working in a Consolidated Location or a Vote Center, then a sign designating a particular precinct will not be displayed.

These posters may be sent out to each polling location as individual posters or in some cases, the County provides a larger version in a combined format. Either way is allowed; just make sure that these are displayed where the public will notice them.

Ready to Go; Let's Start Voting

Promptly at 6:00 AM, the polls open; remember the Sheriff will act as the official timekeeper throughout the day.

KRS 116.025—Eligibility to Vote

- (1) Every person who is a citizen of the United States, a resident of this state, and a resident of the precinct in which he or she offers to vote on or before the day preceding the closing of the registration books for any primary, general, or special election, who possesses on the day of any election the qualifications set forth in Section 145 of the Constitution, exclusive of the durational residency requirements, who is not disqualified under that section or under any other statute, and who is registered as provided in this chapter, may vote for all officers to be elected by the people and on all public questions submitted for determination at that election, in the precinct in which he or she is qualified to vote. Any person who shall have been convicted of any election law offense which is a felony shall not be permitted to vote until his or her civil rights have been restored by executive pardon.
 - a. The Clerk's Office will have taken the appropriate steps (to the best of their abilities) to register voters correctly and place them in their right precincts.
 - b. Election Officers should follow the instructions given by the Clerk's Office during training and with the assistance of the E-poll Book, present voters with the correct ballot that is assigned to their address.

Some Specifics to Know About Voters and their Eligibility

- Voters should cast ballots based on their current residence. If a voter has moved and has a
 different address than what is listed in the E-poll Book, you should immediately contact the Clerk's
 Office so that they get their correct ballot.
- 2. A voter who moved to a different County after **October 7**th is allowed to go back to their previous county and vote in their old precinct for only this election. They should complete a voter card at the old county polling location to register them in their correct county in future elections.
- 3. A voter who moved to a different county on or before **October 7**th who did not change their voter registration to their new county is not eligible to vote in either county for this election or any future election until they register in their new county.
- 4. Any voter who believes that there is an error in their registration record can go to the County Clerk's Office on Election Day and request a hearing with the County Board of Elections (hearings may take place electronically via a computer or other telecommunications device).

Voters and their Ballots for a General Election

During your training, you should be instructed on how you are to determine what ballot the voter will be getting once they are checked in. Depending on what type of Election Plan your county uses, there may be one or more options considering the makeup of the particular precinct that a voter lives in. Making sure that the voter gets the correct ballot is crucial.

The Makeup of a Voter's Ballot and Why It Matters

What a Voter will be Deciding on in the 2024 General Election:

Constitutional Amendments (All Voters)

U.S. President and Vice President (All Voters)

U.S. Congress (District Where Voter Lives)

KY Senate and House Members (District Where Voter Lives)

County Offices (Can Be County-Wide or District Where Voter Lives)

Local City Offices (Can Be City-Wide or District Where Voter Lives)

School Board Offices (District Where Voter Lives)

Local Questions (Can be County-Wide, City-Wide, or even Precinct Where Voter Lives)

As you can see from the graphic above, ballots are complex, accurately built based on where a voter lives, and can have major implications if you give out the wrong one. During your training, you may be asked to identify a code or style on the E-Poll Book that is associated with a voter's address.

Many counties use a "Ballot on Demand" printing system that will print the ballot or a ticket for a Ballot Printer or Ballot Marking Device for a voter once they check in on E-Poll Book. In other counties, you will be asked to identify codes from the E-Poll Book that will allow you to select a ballot for the voter based those codes. Make sure that you understand the proper process or what you are looking for in identifying what ballot a voter will get.

TOUCH SAID BALLOT. If the voter needs to spoil their ballot, they need to place it in a spoiled ballot envelope, seal it, and place it in the spoiled ballot container or compartment. **DO NOT TAKE A BALLOT FROM A VOTER AND PLACE IT IN A SCANNER, THE VOTER MUST DO THIS.**

Tips:

- 1. Each ballot has instructions for the voter to follow, or if the voter is using a ballot marketing device, instructions will be displayed or verbally read to the voter.
- 2. Voters can be told to fill in the boxes or ovals beside the choices for the candidates or questions that they wish to vote for. If the voter needs additional help, please review the Voter Assistance section of this guide (Page 44).
- DO NOT INSTRUCT A VOTER ON HOW TO VOTE FOR STRAIGHT PARTY <u>UNLESS ASKED</u>.
 This can be taken as Electioneering and can lead them to not voting for Non-Partisan Races or Questions.
- 4. Voters tend to scan their ballots, and then alert an Election Officer to there being a problem. If this occurs, instruct the voter that once they have scanned their ballot nothing can be done to fix the issue. If they notice something before casting their ballot, they can spoil the ballot and be issued a second ballot.

Clerk's Duties Throughout the Day

As voters enter the polling location, they will make their way to the Election Clerk's desk where they will be asked to present some form of identification or will have to identified by one of the means listed and explained below (the majority of the voters will present a Driver's License; however, there are other acceptable forms of identification for a voter to present).

Identifying a Voter (Forms SBE 71 & 72 Shown on Page 32)

	VOTERS MAY CONFIRM THEIR IDENTITY BY MEANS OF:	ROSTER CODE
1.	Producing a document issued by Kentucky containing the voter's name and photo

4.	Producing a document issued by a public or private college, university, or postgraduate technical or professional school located in the United States containing the voter's name and photo (high school ID is not valid)	
5.	Producing a document issued by any city government, county government, urban-county government, charter county government, consolidated local government, or unified local government, located in Kentucky containing the voter's name and photo	GOVT
6.	Completing form SBE 71 AND presenting their Social Security card	SBE 71 & SS
7.	Completing form SBE 71 AND producing an SBE approved County ID card SBE 71 8

10.	Completing form SBE 71 AND producing a credit or debit card displaying the voter's name	SBE 71 & CC
11.	Being known by Election Official by name as a resident of the community (Election Officer must also complete form SBE 72)	KNOWN

<u>Question</u>: Can a voter present an expired Kentucky Driver's License and use this as an acceptable form of identification?

<u>Answer</u>: KRS 117.001 states that for "proof of identification" the ID only be issued by the Commonwealth or U. S. Government and contain the name along with the photograph of the individual that the document is issued to. Nowhere does it state that an ID is required to not be expired. **Do not turn a voter away whose ID is expired.**

^{**} Note: An out-of-state Driver's License, whether valid or expired, is not an acceptable form of ID by itself. See #8 Above—Voter must also complete an SBE 71 form **

USING THE E-POLL BOOK

Again, remember to review the training E-poll Book documents provided to you in your Election Officers Training. These materials will teach you how to open, use, and close the electronic roster book throughout the election process.

What Happens When (Common Issues with Voters):

VOTER IS LISTED ON THE E-POLL BOOK AS REQUESTING AN ABSENTEE BALLOT

*Your E-Poll Book must be connected to an internet source to allow it to constantly update files to all E-Poll Books within your county. This is a security and integrity protocol that keeps a person from voting more than once. Remember, E-Poll Books only check-in voters; they do not scan and tabulate ballots cast by a voter.

By making sure the connection exists at the beginning of the day, you ensure that the absentee delta files have been downloaded to the device, and you are good to start checking in voters. If you have issues, the County Clerk can provide you another means for updating the absentee voters (you can contact your County Clerk's Office to make sure this was completed for you in advance or if you need to take further action).

No person who has applied for an absentee ballot may vote in person at the polling place on Election Day, unless the Election Officers receive one of the following:

- Form SBE 26, "Authorization to Vote" at the Polling location;
- Court order.

SBE 26 (04/2024)

See next Page for Military and Overseas Exception Explanation.

COMMONWEALTH OF KENTUCKY STATE BOARD OF ELECTIONS

<u>Tip for Best Customer Service</u>: If you can provide some form of video telecommunication (something done over the phone or by other digital means) to

interact with the local County Board of Elections in place of appearing in-person in front of the CBOE, then do so to limit the time and transportation issues that might arise from a voter having to appear in person before the Board. This is an offering that each county may decide to use during the times in which voting is taking place.

A MILITARY VOTER WHO HAS REQUESTED AN ABSENTEE SHOWS UP TO VOTE IN-PERSON

A Military Voter who shows up at the polling location and has their Mail-in Absentee Ballot can go to the Clerk's Office, cancel their ballot, and then return with an "Authorization to Vote" form (SEE PAGE 33). They can then cast a ballot at the polling location.

*If they do not have their ballot, the Election Officer should call the Clerk's Office to verify that they have not returned a ballot. After this verification, the voter should complete the SBE 32 Oath of Voter (SEE PAGE 37) and sign the E-poll Book once they have returned. The reasoning behind this is that a military voter who completes a Federal Postcard Application (FPCA) is automatically issued a mail-in ballot for any election within the year. If they return from deployment or have switched bases, they may never have received the ballot mailed to them. Military individuals get special consideration because of these circumstances.

THIS ONLY APPLIES TO MILITARY/OVERSEAS VOTER

A PARTICIPANT OF ADDRESS CONFIDENTIALITY PROGRAM (Address comes up listed to "700 Capital Ave")

Victims of certain crimes, including domestic violence, abuse, and sex crimes can apply for the Kentucky Address Confidentiality Program ("ACP"). The ACP is administered by the Kentucky Secretary of State's Office. Participants in the ACP are permitted to vote by mail-in absentee or may appear in the polling place on Election Day or during times of In-Person Absentee Voting.

If your county has ACP participants, each ACP participant will be listed in the EPB with an address of 700 Capital Avenue. When you locate an ACP participant's name, you should do the following:

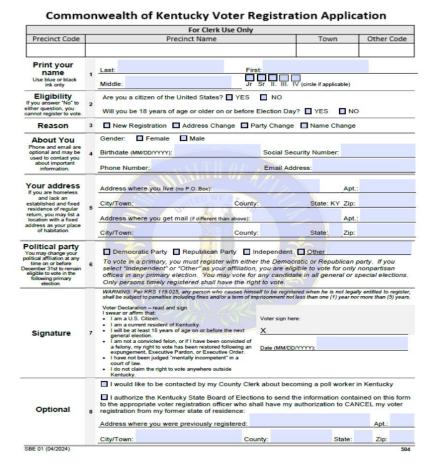

ACP PARTICIPANT LISTED IN EPB	
1.	Confirm ACP participant's identity;
2.	Fill in the Identification type on the line provided;
3.	Direct ACP participant to sign the EPB;
4.	Affix your initials on the EPB; and
5.	Allow ACP participant to vote.

VOTER'S NAME IS DIFFERENT FROM NAME ON E-Poll Book (EPB)

If a voter shows identification that has a different last name than the one on the EPB, the voter must complete a new voter registration card reflecting the name change and is permitted to vote.

If a voter changes their name on their Driver's License but fails to update their voter registration record, the voter is eligible to vote and should sign the EPB and cast their ballot. After the election, the County Clerk will update their voter registration information. Have the Voter sign their current name and complete a new voter registration document, (SEE BELOW)

SAMPLE OF A VOTER REGISTRATION APPLICATION:

PLEASE REMEMBER:

- A voter does not have to put their social security number on their card for it to be valid.
- A voter does not have to list a gender on their registration card for it to be valid.
- A power of attorney (POA) cannot sign a voter card for a voter.
- If the voter cannot sign their name, they should make a mark or print their name just as they would for any other document they would "sign or mark".

VOTER DOES NOT RESIDE IN PRECINCT LISTED ON THE EPB OR ADDRESS HAS CHANGED

If an individual gives you an address other than the one shown on the EPB, and it is in a different precinct within your county, then:

- If you are working in a Precinct or Consolidated Location -- The individual must vote in the precinct in which they live. Call the County Clerk for the polling location of their correct precinct and then, direct the voter to the correct polling location for that precinct. Once there, the voter will sign the E-poll Book using the NEW SUPPLEMENTAL PROCEDURE, complete an Oath of Voter, and New Vote Registration Card. They can then vote with their correct ballot.
- If you are working in a Vote Center, you will call the Clerk's Office or the County Board of Elections and get voter's correct precinct code and ballot-style information before having them sign the E-poll Book using the NEW SUPPLEMENTAL PROCEDURE, complete an Oath of Voter, and New Vote Registration Card. They can then vote with their correct ballot.

If the individual gives you an address other than the one shown on the EPB and it is in another county:

- If the individual moved to a different county while the voter registration books are closed (October 7, 2024 thru November 12, 2024), then the individual should be permitted to vote in his old county of residence for one (1) election only. The individual should be instructed to register in their new county of residence. The individual should be given a voter registration card to complete and mail to the County Clerk in the new county.
- If the individual moved to a different county before the voter registration books closed on October 7, 2024, and failed to change their registration, then the individual is not eligible to vote in the old county or the new county of residence. The individual should be instructed to register in their new county of residence so that they will be eligible to vote in the next election. The individual should be given a voter registration card to complete and mail to the County Clerk in the new county.

<u>Tip</u>: If you are working out of a Vote Center and a voter has to have their registration updated to their correct address (or has any other issue), they should be pulled to a customer service table so that the line can continue to move while they are being taken care of. If you are working in a Precinct or Consolidated Location, you can have one of the other Election Officers take them a side and make a call to the office to get their correct precinct, ballot information, and paperwork (oath of voter/ new voter registration form) completed before taking them back to an EPB to get them signed in using EPB Supplemental process.

When a voter needs to make an address change, you should take the following steps:

- 1. Call the Clerk's Office or the County Board of Elections to get their proper precinct code and ballot-style.
- 2. If you are working in a Precinct or Consolidated Location and the voter's address is not in your precinct(s), guide the voter to the correct Polling location. In a Voting Center, this

will not be an issue as a Voting Center allows for any voter to cast their ballot in that Polling location

- 3. Before the Voter can cast a ballot, you must have the voter complete:
 - a. A New Voter Registration Application (SEE PAGE 35);
 - b. An Oath of Voter Form (SEE BELOW); and
 - c. NEW -- The Election Officer will follow the E-poll Book Instructions to allow the voter to sign in on the E-poll Book as a Supplemental (SEE E-poll Book Training Guide for instructions)
- 4. ONLY after they have completed all three steps, should you give them their proper ballot.

COMMONWEALTH OF KENTUCKY STATE BOARD OF ELECTIONS

OATH OF VOTER

When a voter has moved to a new precinct within the same county and is not listed on the current precinct roster, when the officers of an election disagree as to the qualifications of a voter, or when a voter's right to vote is disputed by a challenger, the voter shall sign the following oath as to his qualifications before he is permitted to vote.

Special Circumstances (Election Officers must send voter to the County Clerk's Office or If possible, use a video teleconferencing procedure):

- If a voter has been placed in the wrong county (Real ID issue or County Clerk's Office error), that voter must go to the County Clerk's Office where they reside. Once there, the County Clerks from both counties must determine if the voter is eligible and if this was indeed an error caused by the Regional ID Office. If they concur, the Clerk of the county where the voter is registered in VRS can send a letter/email to the Clerk in the county in which the voter resides stating that they agree that the voter has been placed in the wrong county and is eligible to vote in the correct county. At that time, the Clerk, their staff, or the County Board of Elections in the county where the voter resides will follow the steps that the E-poll Book vendor has trained them on regarding adding that voter to the E-poll Book and should immediately register this voter in VRS (please reach out to the VRS helpdesk - vrshelpdesk@ky.gov). This will allow the voter to show up on the E-poll Book (Connectivity at the location must be on to make this work—Clerks' Offices should be monitoring this in their E-poll Book monitoring suite). The voter can then return to the Precinct or Consolidated Location where they should vote, or if your county utilizes a Vote Center model, any location. DOCUMENT THIS PROCESS THROUGHLY INCLUDING THE INTERACTION WITH THE TWO CLERKS! This is a decision that should be made between the two Clerks and County Boards of Elections.
- If a voter is not in the E-poll Book and has been found to be an eligible registered voter by the County Board of Elections, the voter must go to the Clerk's Office, or if possible, use a teleconferencing procedure to address the issue. At this time, the Clerk, their staff, or the County Board of Elections will use instructions on how to add that voter to the E-poll Book and should immediately register this voter in VRS (please reach out to VRS to make them aware of this situation vrshelpdesk@ky.gov). This will allow the voter to show up on the E-poll Book (Connectivity at the location must be on to make this work—Clerks' Offices should be monitoring this on in their E-poll Book monitoring suite). The voter can then return to the Precinct or Consolidated Location where they should vote, or if your county utilizes a Voter Center model, any location. The County Clerk should give them a copy of an Authorization to Vote, which is Form SBE 26 (SEE PAGE 33).

<u>Tip</u>: In preparation of election supplies, a paper SBE 25 Supplemental Precinct Signature Roster should be part of those supplies, as an **emergency backup** to any scenario that may require the use of this emergency document.

CHALLENGERS

Challenger Basics

- Challengers must produce written appointment to Election Officers on demand.
- Challengers may question the eligibility of a voter who presents himself at the polls.
 Reasons a challenger may dispute a voter may include:
 - The voter is not a duly registered voter in the precinct (Not Applicable in a Vote Center);

- The voter is not a resident of the precinct (Not Applicable in a Vote Center);
- o The voter is a convicted felon who has not had his civil rights restored; or
- The voter is not the person he claims to be.
- If the challenger attempts to challenge a person's right to vote, he must explain his challenge only to the election officer, not to the voter.
 - The challenged voter will then need to sign form SBE 32, Oath of Voter (SEE PAGE 37), before being allowed to follow the normal procedures for voting.
 - The challenger will sign the bottom portion of form SBE 32, Oath of Voter (SEE PAGE 37), and state their reason for challenging the voter's right to vote in that precinct (Not Applicable in a Vote Center).
- Challengers are the only persons permitted to have a check-off list in the form of paper, cellphones, computers, or any other electronic device to record the identity of a voter within the voting room.
- Challengers are entitled to stay in the voting room all hours during Election Day.
- Challengers may come and go from the voting room throughout the day.

Challengers Cannot:

- Electioneer or campaign on behalf of any candidate, issue or political party.
- Handle election materials (except the signing of form SBE 32, Oath of Voter, for challenged voters).
- Attempt to intimidate or harass, verbally or otherwise, any voter who is being challenged or any election officer.
- Behave in any manner to disrupt activities at the polling place or attempt to interfere with the proper conduct of the election.

An election officer may order a challenger to leave the polling location after one warning if the individual violates any of the above-mentioned. A challenger who is ordered from a polling site shall be prohibited from serving as a challenger in any polling location in any election for a period of five (5) years.

Election Sheriff Duties Throughout the Day

Election Sheriffs are primarily responsible for making sure that no electioneering is taking place in the polling location while people are casting their ballots. They are to enforce the 100-foot ban from the entrance of the polling location and document any infractions or irregularities on the SBE 53 Precinct Sheriff's Report (SEE PAGE 41). In addition to these duties, after the voters have cast their ballots and are leaving the Polling location, the Election Sheriff should make sure that voters have "I Voted" stickers (this can be shared with other Election Officers in accordance with the Clerk's Office Voting Plan).

ELECTIONEERING

No person may electioneer within one hundred (100) feet of the entrance of a voting location. However, this restriction does not apply to private property (unless it is being used as a voting location). Individuals conducting exit polling or having bumper stickers on vehicles that are present for a reasonable amount of time in which to vote are also not considered to be in violation of the electioneering prohibition (100). KRS 117.235.

A bumper sticker is defined as measuring within 14 inches by 5 inches (14" x 5"), affixed to a person's vehicle while parked within or passing through a distance of one hundred (100) feet of any entrance to the building in which a voting machine is located if that entrance is unlocked and is used by voters during the hours voting is being conducted in the building for a reasonable amount of time in which to vote.

DO NOT TURN ANY ELIGIBLE, REGISTERED VOTER AWAY FROM THE POLLS BEFORE GIVING THE VOTER A CHANCE TO CAST A BALLOT.

If you, as an election officer, witness **ANY** electioneering on Election Day, you must notify or warn the individual of the prohibition on electioneering. If you believe a voter has violated the electioneering law, the election Sheriff should contact the County Clerk's office and report the violation on the SBE 53 Precinct Sheriff's Post-Election Report (SEE PAGE 41).

Enforcement of the electioneering statute is the responsibility of the Election Officers, County Clerk, deputy County Clerk, or other law enforcement official. You, as an Election Officer, **SHOULD NOT** enter upon private property to remove electioneering materials.

EXIT POLLING

KENTUCKY LAW ALLOWS EXIT POLLING ON ELECTION DAY.

Individuals conducting exit polls do not have to register or have credentials, and there is no limit as to a distance they must keep from the polls. However, those who conduct exit polling are not allowed to be located within the voting room and are not allowed to disrupt the election process. **VOTERS ARE NOT OBLIGATED TO PARTICIPATE IN THE EXIT POLLING**.

Individuals who conduct exit polling may only talk to voters as they leave the polling place after the voter has already voted.

PROHIBITION AGAINST CHECK-OFF LISTS

No person allowed in the voting room, including the Election Officers, may use paper, telephones, personal communication devices, computers, or other information technology systems to create a check-off list or record the identity of voters, except for the official use of the EPB or form SBE 25, Supplemental Precinct Signature Roster if necessary, furnished by the State Board of Elections, and challengers. However, the news media may use cameras for the limited purpose of filming the voting process, but they may not record the identity of voters.

BALLOT SELFIES

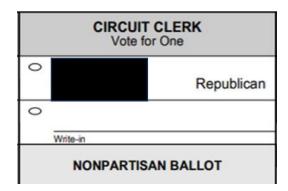

- Kentucky law does not prohibit a voter from taking a "ballot selfie." 31 KAR 4:170(2) and OAG 16-007.
- Voters may possess and use their cellphones in the voting room to take a "ballot selfie".
 31 KAR 4:170(2).
- "Ballot selfies" are limited to a picture of oneself and their personal ballot inside the voting room.
- While law permits "ballot selfies", voters should exercise caution in the practice of taking
 a "ballot selfie" to refrain from inadvertently recording the identity of other voters or
 other voter's ballots in the voting room, as this would violate KRS 117.236(2).
 Furthermore, voters should refrain from communicating their support or nonsupport of a
 candidate, party, or measure on the ballot to other voters in the voting room as this may
 violate KRS 117.235(4).
- The election Sheriff should document any possible violations on form SBE 53, Precinct Election Sheriff's Post-Election Report.

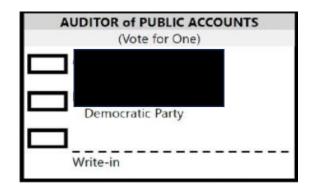

SBE 53 PRECINCT SHERIFF'S REPORT

- If working in a Consolidated Precinct, list all precincts that are voting at that Polling location.
- If working in a Voting Center, put "All" under precincts.

WRITE-IN BALLOTS

117.265 Write-in votes -- Requirements -- Persons ineligible to be write-in candidate -- Certified lists of qualified candidates.

- (2) Write-in votes shall be counted only for candidates for election to office who have filed a declaration of intent to be a write-in candidate with the Secretary of State or county clerk, depending on the office being sought, on or before the fourth Friday in October preceding the date of the regular election and not later than the second Friday before the date of a special election. In the case of a special election administered under KRS 118.730, a declaration of intent to be a write-in candidate shall be filed at least twenty-eight (28) days before the day of the election. The declaration of intent shall be filed no earlier than the first Wednesday after the first Monday in November of the year preceding the year the office will appear on the ballot, and no later than 4 p.m. local time at the place of filing when filed on the last date on which papers may be filed. The declaration of intent shall be on a form prescribed and furnished by the Secretary of State.
- (5) The county clerk shall provide to the precinct election officers certified lists of those persons who have filed declarations of intent as provided in subsections (2) and (3) of this section. Only write-in votes cast for qualified candidates shall be counted.
- (6) Two (2) election officers of opposing parties shall upon the request of any voter instruct the voter on how to cast a write-in vote.

Write-In Candidates can file as late as the 4th Friday in October which means that they won't appear on the ballot. As an Election Officer, you are required to know how to assist someone if they need instructions on how to cast a write-in vote and be aware of where to find a list of Certified Write-In Candidates.

It very important to remember that you do not display this list of candidates at the polling place. The list is to be provided by the County Clerk to each polling place (this includes during In-Person Absentee Voting) and is to **ONLY** be shown to voters who request to see the list of Certified Write-In Candidates.

If a voter wishes to cast a write-in, they mark the box or oval next to the "Write-in line" for whichever contest that they wish to vote in. They then simply write in that person's name. If they are using a Ballot Marking Device, they will type in the name. There may be contests where they could vote for more than one write-in candidate based on how many offices are available in that contest.

ONLY Certified Write-In Candidates will have their votes counted after the Election.

ELECTION JUDGES DUTIES THROUGHOUT THE DAY

Election Judges have many tasks throughout the day while voting is taking place. As a voter checks-in and needs forms completed, instructions in voting, or help casting a ballot, Judges will assist them. However, Election Judges' primary job throughout the day is to pass out the correct ballots or set the machines for the proper style that is tied to the voter. This can be done in many ways depending on the number ballot-styles in a Polling location and the Clerk's Office Voting Plan. This will include handling Provisional Ballots as well.

- 1. Election Judges can sit by the Election Clerks. After a voter is checked-in, they can pull that voter's ballot from a pre-printed stack of ballots or use a Print on Demand (POD) to print the proper ballot-style for the voter at that moment.
- 2. The Election Clerks can provide the voter with a slip of paper with a ballot-style written on it or printed barcode that the voter can then take to the area where the Judges are passing out proper ballot-styles or setting Accessible or Ballot Marking Devices.

With the Election Judges being responsible for making sure that voters get the proper ballot, they must also track the number of ballots that they print and use throughout the day using a Ballot Accountability Statement. Your county may have a different version of this form. This form is merely provided for illustration purposes only. The State Board of Elections makes no assurance as to the validity or legal sufficiency of this document pursuant to 31 KAR 2:010.

VOTER NEEDS ASSISTANCE

A VOTER WITH DISABILITIES HAS TWO (2) OPTIONS AT THE POLLING PLACE

- The voter may vote without assistance on any voting machine of their choosing, including
 the accessible voting machine, and does not need to fill out SBE 31, Voter Assistance
 Form. The County Board of Elections will give you detailed instructions on operating the
 accessible voting machine; or
- 2. The voter may have assistance along with help completing and signing SBE 31, Voter Assistance Form, listing the specific reason for assistance (see below), and vote on any voting machine. The Election Judge will attest to the identity of the person that is assisting the voter. The person assisting will enter the voting booth or ballot completion area and operate the voting machine or complete the ballot for the voter as the voter directs.

- Blindness (does not include those voters who forgot to wear their glasses or contacts);

One Judge shall, in the presence of the other Judge and the voter, operate the voting machine or complete the ballot as the voter directs.

APPLICATION FOR PERMANENT ASSISTANCE TO VOTE

There is a portion of the SBE 31, Voter Assistance Form, wherein the voter may request that the County Board of Elections certify that the voter needs permanent assistance due to blindness or physical disability.

If the County Board of Elections approves the voter's request, the voter will have permanent certification relieving only the voter from the responsibility of signing the SBE 31, Voter Assistance Form. Thereafter, the EPB will indicate permanent assistance or to designate the voter as having permanent assistance.

Even if a voter is certified for permanent assistance, the person assisting the voter and the election Clerk must complete and sign their portion of the oath on the SBE 31 Voter Assistance Form (SEE PAGE 44).

Violations of the laws regarding voter assistance should be reported to the County Board of Elections immediately and be noted on the SBE 53, Precinct Election Sheriff's Post-Election Report (SEE PAGE 41).

Voters who have been certified for permanent assistance will have some indication on the checkin screen on the E-poll Book (reference the E-poll Book training materials for a sample of this designation). Regardless of if the voter is certified for permanent assistance, they have the option to vote without assistance. The individual who assists the voter, including an individual who is a certified minor, must complete the portion of the SBE 31, Voter Assistance Form, declaring that they will operate the machine or assist with the ballot as directed by the voter. An election officer must also sign the Oath on the SBE 31, Voter Assistance Form.

PROVISIONAL BALLOTS | (FEDERAL OFFICES ONLY)

Contact Your County Clerk or Board of Elections Before Issuing

Provisional Ballots can be issued during days when in-person absentee is taking place as well as on election day.

A provisional ballot is a ballot cast in an election for FEDERAL OFFICES ONLY (President, United States Senator, and United States Representative) by an individual who resides in a precinct, but whose eligibility to vote is in question or is not determinable on Election Day.

Provisional ballots protect the rights of any potential voter. The "Instructions for Voting a Provisional Ballot Poster" is posted in a conspicuous place to provide information on how to cast a provisional ballot. See Election Day Posters and Notices Required to be Posted at Polling Location. You will have a minimum of 20 unvoted provisional ballots for each precinct.

It is very important to use the following forms when issuing a provisional ballot:

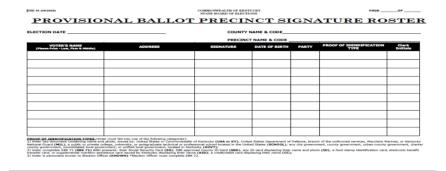

Provisional ballot and attached ballot stub.

Provisional ballots are attached to consecutively numbered ballot stubs. Tear the provisional
ballot away from the ballot stub at the perforation. Fill in the voter's name and sign your initials
on the ballot stub. If the provisional ballot is spoiled, you must also mark the "spoiled ballot" box
on the provisional ballot stub. All voted provisional ballots are returned to the county clerk's office
at the end of Election Day.

Form SBE 35, Provisional Ballot Precinct Signature Roster (ONLY USE IN EMERGENCY CASES)

- E-Poll Books are equipped to capture information and signatures of voters who require a Provisional Ballot so voters should use the E-Poll Book to sign for a Provisional.
- Form SBE 35, Provisional Ballot Precinct Signature Roster, is used for any voter who is issued a provisional ballot. The voter must sign form SBE 35, Provisional Ballot Precinct Signature Roster. Affix your initials on form SBE 35, Provisional Ballot Precinct Signature Roster, and print the individual's name, address, birth date, political party affiliation, and identification type.

PROVISIONAL BALLOT

Before issuing a provisional ballot, the individual must be informed of the option to request a hearing before the county board of elections to dispute eligibility. If the individual goes before the county board of elections for a hearing and the decision is to deny the individual the ability to vote, the individual may request a hearing before a Circuit Judge. If the individual is turned down by the Circuit Judge, the individual may return to the polling location in which they live, confirm by affidavit that they live in a specific precinct, and vote a provisional ballot. If the individual chooses to vote a provisional ballot at a polling location, then the individual is not eligible to vote in any other manner.

All provisional ballots are reviewed by the county board of elections to determine if the provisional ballots will be counted or not. The voter must sign the "Provisional Ballot Affirmation" located on form SBE 38, Provisional Ballot Outer Envelope, stating that they are a resident of a specific precinct and an eligible voter.

Only an individual who meets **one or more of the following five (5) categories** may receive a provisional ballot:

- 1. An individual whose name does not appear on the EPB and whose registration status cannot be determined by the election officers.
 - Call the county clerk's office to confirm the individual's registration in your county. If you are
 unable to confirm the individual's registration in your county and the individual chooses not
 to have a hearing before the county board of elections, a provisional ballot should be issued
 to the individual.
- 2. An individual whose name does not appear on the EPB and who has been verified ineligible to vote.
 - Call the county clerk's office to confirm the individual's registration in your county. If you
 confirm the individual is not registered in your county, a provisional ballot should be issued
 to the individual if the individual chooses not to have a hearing before the county board of
 elections.
- 3. An individual who does not produce an acceptable source of identification.
 - An individual may leave the polling location to get identification or may request a provisional ballot. The individual's personal acquaintance with one of the election officers is an acceptable form of identification, and this individual would vote the entire ballot on the voting machine (electronic or paper).
- 4. An individual who has been challenged by four (4) election officers (two (2) of each party).
 - If four (4) election officers (two (2) of each party) have personal knowledge that an individual is not qualified to vote, the individual has the option of requesting a hearing before the county board of elections to dispute the challenge or vote a provisional ballot.
 - If fewer than all four (4) election officers do not have personal knowledge of why this individual is not qualified to vote, the individual must complete form SBE 32, Oath of Voter, show identification, and sign the EPB or if necessary, form SBE 25, Supplemental Precinct Roster. The individual is then permitted to vote a regular ballot.
- 5. An individual who is voting as a result of a federal or state court order or any order under state law in effect ten (10) days prior to Election Day which extends the polling hours.

The voter must show identification or be personally known by an election officer (must sign in on the E-Poll Book as Provisional Voter or the form SBE 35, Provisional Ballot Precinct Signature Roster, if an emergency occurs. Do not contact the county clerk to confirm voter registration if the individual is being issued a provisional ballot because of no acceptable source of identification; a voter that can't proof their identity by any means listed on (PAGE 31) is not eligible to vote any ballot.

Give the voter a pen and private area to mark the provisional ballot. Instruct the voter to place the voted provisional ballot in form SBE 39, Provisional Ballot Inner Envelope, marked "PROVISIONAL BALLOT" and seal the envelope. The voter is to place the sealed form SBE 39, Provisional Ballot Inner Envelope, marked "PROVISIONAL BALLOT" into the completed form SBE 38, Provisional Ballot Outer Envelope, and seal the envelope.

A spoiled provisional ballot is a provisional ballot that contains an error made by the marking of the voter. If the voter makes a mistake marking the provisional ballot, the voter may request a second provisional ballot from you. The spoiled provisional ballot should be placed in form SBE 39, Provisional Ballot Inner Envelope, marked "PROVISIONAL BALLOT" by the voter, sealed by the voter, and returned to you before a second provisional ballot is issued to the voter. You will write "Spoiled Ballot" on the outside of form SBE 39, Provisional Ballot Inner Envelope, AND place a mark in the "spoiled ballot" box on the provisional ballot stub. All sealed spoiled provisional ballots must be placed in the same container provided with Election Day supplies to be returned to the county clerk's office at the end of Election Day. A voter can spoil up to two (2) provisional ballots and be issued no more than a total of three (3) provisional ballots.

Voted provisional ballots will be returned by the voter in the sealed envelopes to you. You will place the voted provisional ballots in the container or pouch provided by the Clerk with Election Day supplies to be returned to the county clerk's office at the end of Election Day. You should report to the Clerk's Office that there was a voted Provisional Ballot voted during the day.

You must give the voter form SBE 36, Provisional Ballot Information Sheet, which explains the individual's right to contact his/her county clerk to learn if the provisional ballot was counted, and if not counted, the reason why.

You are accountable for every provisional ballot. At the end of Election Day, four (4) election officers must fill out and sign form SBE 37, Provisional Ballot Accountability Statement, as follows:

After all provisional ballots are returned to the county clerk's office at the end of Election Day, the county board of elections will determine if they are eligible to vote in the election, and if eligible, the provisional ballot will be counted.

CLOSING OUT THE ELECTION

At 6:00PM, the Election Sheriff looks at his official timepiece and determines it is time to close the polls on Election Night. If there is a line at the polling location, the Election Sheriff places themselves at the back of the line and then allows everyone in front of them to vote before the machines are closed.

CLOSING SECURITY PROTOCOLS

WHEN TO CLOSE THE POLLS, RECORDING THE RESULTS, AND SECURING THE EQUIPMENT AFTER CLOSING THE POLLS

After all voters who were in line by 6:00 p.m. have cast their ballots, it is time for the Election Officers to close the voting devices and tabulate the votes.

WHEN CLOSING THE POLLS, YOU SHOULD FOLLOW THE PROCESS BELOW:

- You should validate the number of all Voting Machines and Ballot Marking Devices as well E-Poll Books. EPBs should be secured in a transport case for return to the local election office.
- The voting devices should be secured by using the numbered closing seals.
- You should complete and sign the proper paperwork to be returned to the County Clerk,
 County Board of Elections, and grand jury.
- The public and protective counter numbers should be recorded on the return envelopes along with device serial number and seal numbers on the Verification Forms.
- The printout totals for each voting device used should be recorded on the proper paperwork, posted at the polling location, and then returned to the County Clerk and County Board of Elections. Remember, if you have any candidates who withdrew from a race, you should mark out the totals at the polling location before you place on the door.
- The Election Judges should return the devices and materials to the County Clerk and County Board of Elections, making certain to properly seal all devices before transport begins. Do not put these materials inside the voting machine. The voting machine is to be locked for thirty (30) days after the election and can only be opened by court order.
- The County Clerk should verify receipt of all devices and confirm that all devices are properly sealed.

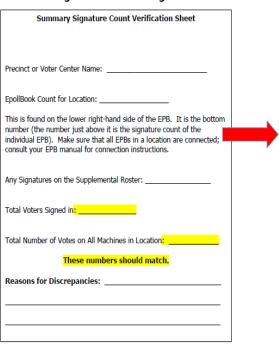

All voting machines must be under video surveillance for 30 days after the Election. The County Board of Elections, the Clerk's Office, and the local County Attorney will decide how to accommodate this. Ask during training for specific instructions on how to make sure that this occurs.

AT THE END OF THE DAY, ELECTION OFFICERS SHOULD COMPARE THE FOLLOWING NUMBERS:

- The number of votes recorded on all voting devices.
 vs.
- The number of signatures on the EPBs and on any SBE 25, Supplement Precinct Signature Rosters (Again, these should not be used as the E-poll Books are to be used to check-in all voters).

SUMMARY SIGNATURE PAGE — SAMPLE (This is not an SBE set form just a suggestion for tracking signatures vs. machine vote count) You should be aware of discrepancies.

See Next Page For Location Signature Count

Consult your E-poll Book
Training Guide to find the
correct location of total checkins for that location. Ask for
specifics during your training.

<u>NOTE</u>: At the end of Election Night, after the process of closing the polls is complete, the voting machines are to be locked with seals intact. Election Officers should secure the voting equipment in the manner described during the Election Officers Training and return any items that the Clerk has instructed to be brought back to the office.

DUTIES OF ELECTION SHERIFF DURING CLOSING

After the Sheriff finishes making sure that all eligible voters have checked-in, the Election Sheriff will begin collecting all ADA materials and taking down posters along with the other signage. All of this should be stored neatly where it was found on Election Morning. In addition, Sheriffs

should help begin taking down booths and stacking them, so that they are ready for pickup. In addition, all Election Officers will have paperwork to sign before leaving on Election night. The Election Sheriff should complete their SBE 53 Sheriff's Report (SEE PAGE 41) and return it with the other Election Night Forms that are sent on to the Clerk's Office (that evening, if possible, if not, it must be returned to the Clerk's Office within 3 days after the Election).

DUTIES OF ELECTION CLERK(S) DURING CLOSING

Once the last voter has cast their ballot, the Election Clerk(s) will do one last verification of the number of check-ins so they can be compared to the number of votes cast. If there is any discrepancy that should be reported on the Election Sheriff's Report (SEE PAGE 41). The Election Clerk should make sure one last time that the E-poll Book shows that is connected; if there are any problems with connectivity, make sure that the Clerk's Office knows about the issue immediately. After completing these tasks, the Election Clerk should place the E-poll Book and all of its components back into the case from which it came, in addition to gathering up any supplies that were used during the day. Finally, the Clerks should complete Election Day documents, help the others takedown, and secure Election Day equipment and supplies.

DUTIES OF ELECTION JUDGES DURING CLOSING

After all voters have cast their ballots, the Election Judges will begin to closedown voting machines and print out results. REMEMBER TO USE INSTRUCTION BOOKLETS PROVIDED BY THE VENDORS TO DO THIS; ONE READS WHILE THE OTHER PERFORMS THE TASK - this is the best way to prevent issues. Once the machines print the results, they will post a copy of the results on the window and have at least four (4) Election Officers sign the remaining copies (ideally, 2 Democrats and 2 Republicans – if you do not have 2 Democrats and 2 Republicans, maintain party parity with signers, i.e. 2 Republicans, 1 Democrat, 1 Independent). The Judges will secure and make sure again that all the voting equipment is sealed and ready to be returned to the County. Two Judges (from differing political affiliations) will be tasked with returning the following to the Clerk's Office at the end of the evening:

- 1. Any keys to the voting machines and/or the building;
- 2. The storage devices from the Scanners <u>VERY IMPORTANT --THIS IS HOW THE UNOFFICIAL RESULTS WILL BE PASSED ALONG TO THE PUBLIC;</u>
- 3. Any forms that voters completed throughout the Day (Voters Assistance, Oath of Voters, etc...);
- 4. The E-poll Books should be returned if their return is included in the Clerk's Election Day Plan:
- 5. SBE 53 Sheriff's Report- if completed;
- 6. Any other items that the Clerk may deem necessary to be return to the office that evening.

The following guidance is provided by the Kentucky Office of the ADA Coordinator and Kentucky Protection and Advocacy. The ADA (American Disability Act) requires states to ensure that all aspects of the voter registration process are accessible to persons with disabilities. The ADA also prohibits a state from categorically disqualifying all individuals who have intellectual or mental health disabilities from registering to vote or from voting because of their disability.

Individuals with disabilities are people who may do things differently than a person with no disability. While some disabilities are readily apparent and visible to others, most disabilities are not visible. Because of this, use of the accessible voting machine should be offered to every voter, not just those who you believe may have a disability.

Polling Place Accessibility

The ADA requires that public entities ensure that people with disabilities can access and use their voting facilities. Assess whether the location already has basic accessibility features needed by most voters with disabilities or can be made accessible on election day using temporary solutions to remove barriers.

Common Barriers and Potential Temporary Solutions

Barrier Potential	Temporary Solution
Ithere are no	Create temporary accessible parking by using traffic cones and portable signs to mark accessible spaces and access aisles.

Common Barriers and Potential Temporary Solutions

Barrier Potential	Temporary Solution
Sidewalks lack a curb ramp meaning that a person using a wheelchair cannot get to the polling place to vote.	Install a ramp at least 36 inches wide, with a slope no more than 1:12, to provide temporary access over curbs or onto sidewalks.
A hallway contains drinking fountains, coat racks, fire extinguishers, or other protruding objects that may pose hazards to voters with vision disabilities.	Place traffic cones or other barriers that can be detected with a cane, such as planters or portable railings, at or under protruding objects.
handles requires tight	Install temporary levers or other adapters that do not require tight grasping, pinching, or twisting. Alternatively, a temporary doorbell or buzzer system may be used to alert a poll worker to open the door or doors for the voter.
Door openings are less than 32 inches wide.	If one door of a double-leaf door is not wide enough, propping open the second door may provide enough clearance.
machings making it	Arrange check-in tables and voting stations to provide an accessible path for voters to go from the check-in table to the voting station and out again.

If temporary solutions would not work, and permanent changes cannot be made to fix barriers, then the election official must identify an alternative, accessible polling place or vote center.

General Information

- Always ask if a voter with a disability needs assistance before you help.
 - Since each person and situation is unique, the best advice is to ask the voter with a disability:
 - If they would like assistance, and
 - The best way you can assist them.
 - It is the person's right to choose whether to accept assistance.
- Speak directly to the voter and not "about" the voter to a person who may have accompanied them to the polling place.
- Do not speak louder to a voter who has a visible disability. Just because someone may have a physical disability, please do not assume there are other disabilities as well.
- Be aware about your physical contact with a voter. They may have:
 - Heightened sensitivity to physical contact, or
 - Balance issues that may be thrown off even with the most well-intended contact.
- The voter with a disability is a person first. When you need to refer to a voter with a disability, use Person First Language. Example: Voter with a learning disability.
- Have a large pen on hand for those individuals who may have difficulty gripping.
- If needed, you may use writing materials like a dry erase board or pen/paper to assist with communication.
- If possible, do not place the voter registration table directly in front of a window or light source.
- Allow a voter with a disability to sit down instead of standing in a long line to vote.
- Allow a voter with a disability to bring a service animal into the polling place even if the location has a no-pets policy.
- Allow a voter with a disability who needs assistance to have their companion with them in the voting booth.
- Modify other voting policies, practices, or procedures when such modifications are necessary to avoid discrimination based on a voter's disability.

Sensitive Use of Language

- Do not refer to the disability unless it is relevant.
- Do not sensationalize a disability by saying "victim of" or "afflicted with," etc.
- Avoid emotional descriptions:
 - "Uses a wheelchair" not "confined to a wheelchair;"
 - "Walks with crutches" not "is crippled."
- People with disabilities use words such as "see," "hear," "run" and "walk."
- When speaking with a person with a speech impairment and you don't understand, feel free to ask them to repeat or rephrase the statement.
- Remember: American Sign Language ("ASL") is a language itself. English is considered as a second language for someone whose primary language is ASL.
- Remember: speech impairment doesn't always mean intellectual disability.

Mobility Disabilities

- People who use crutches, canes or walkers should never be grabbed. They use their arms for balance.
- Do not hang or lean on the wheelchair. It is an extension of the user's personal space.
- Get on a person's eye level by sitting down when having a discussion.

Deaf and Hard of Hearing

- People with varying levels of hearing loss communicate via sign language, ASL (or another type of sign language), or spoken English.
- Hearing aids may be used. Remember that not all hearing aids allow individuals to hear speech; they may be used to hear loud sounds.
- If needed, a person may use a *qualified interpreter*. *Qualified interpreter* means an interpreter who, via a video remote interpreting (VRI) service or an on-site appearance, is able to interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. Qualified interpreters include, for example, sign language interpreters, oral transliterators, and cued-language transliterators.
- When speaking with a person who uses an interpreter, maintain eye contact with the individual, not the interpreter.
- Get the voter's attention by tapping on shoulder or arm.
- Keep hands or objects away from the mouth.
- Do not exaggerate gestures or mouth movements.
- Use short sentences.
- Do not assume ability to read lips; the average accuracy of lip reading is about 30%.

Visual Impairment

- People have varying levels of visual functioning. Not everyone with visual impairments is considered "blind." Do not assume level of functioning.
- Not all people with visual impairments read Braille. Some may use large print or audio versions of materials. Offer him/her the use of audio ballot.
- Announce when you enter or leave a room.
- Do not place items on the floor that may impede the person's movement about the room.
- Guiding a person who is visually impaired is best accomplished by offering your arm or shoulder.
- When walking with a voter with a visual impairment to a chair:
 - 1. Walk to the side of the chair
 - 2. Take his/her hand from your arm and place it on the back of the chair.
- Do not pat or play with a guide dog when he/she is working; always ask the owner first.
- Walk on the side opposite the guide dog.
- Read written information if asked.

Learning Disabilities

- Individuals have average or above-average intelligence.
- Learning disabilities may occur in:
 spoken language | written language | arithmetic | reasoning | organizational skills
- People with dyslexia may need verbal instruction.
- Ask how the individual wants to receive information.
- Have headphones for audio ballots readily available for the voter.

Psychological Disability

- Making quick decisions may be difficult; allow time for a response.
- Do not assume that the person is dangerous based on diagnosis.
- Do not assume that accounts of events are delusions.
- People may have different reactions to questions/situations than what you would expect (example: may need extra time to process information).

Intellectual Disability

- The term "mentally retarded" is no longer acceptable.
- Speak in clear, short sentences.
- Do not use baby talk.
- Making quick decisions may be difficult; allow time for a response.
- People with intellectual disabilities rely on familiar situations. A change in their routine may require additional time and patience.

Brain Injury

- People whose brains were injured in accidents, strokes, medication interactions, substance abuse, during military service, etc.
- People may have visible disability (mobility, vision, etc.) that resulted from the injury, but not always.
- Speech and decision-making may be affected; allow time for a response.
- People with brain injuries rely on familiar situations. A change in their routine may require additional time and patience.
- Memory (short-term or long-term) may be affected. You may need to repeat yourself.
- Depending on where the brain was injured, people may display more emotions (crying, speak angry words, etc.).

Service Animals

- Under the ADA Amendment Act, a service animal is defined as a:
 - o Dog (always) and a Miniature horse (on a case-by-case basis)
- No other animal is recognized by the ADA as a service animal.
- Under the ADA, a service animal is individually trained to perform tasks that the individual cannot perform for themselves.

Examples:

- Guiding people who are blind.
- Alerting people who are deaf.
- Alerting people who have seizures.
- Performing other tasks
- A service animal must be under the control of its handler. Under the ADA, service
 animals must be harnessed, leashed, or tethered, unless the individual's disability
 prevents using these devices or these devices interfere with the service animal's safe,
 effective performance of tasks. In that case, the individual must maintain control of the
 animal through voice, signal, or other effective controls.
- Providing "emotional support" or comfort is not a task. Animals that only do this are <u>not</u> service animals.
- A service animal is permitted in all areas of a facility open to the public, including but not limited to:

restaurants	hotels	taxis	buses	shuttles
grocery stores	hospital	theaters	jail	zoos
medical offices	health clubs	parks	stores	polling places

Inquiries, Exclusions, Charges, and Other Specific Rules Related to Service Animals

- When it is not obvious what service an animal provides, only limited inquiries are allowed. Staff may ask two questions:
 - 1. Is the dog a service animal required because of a disability?
 - 2. What work or task has the dog been trained to perform?
- Staff cannot ask about the person's disability, require medical documentation, require a special identification card or training documentation for the dog, or ask that the dog demonstrate its ability to perform the work or task.
- Allergies and fear of dogs are not valid reasons for denying access or refusing service to people using service animals.
- A person with a disability cannot be asked to remove his service animal from the premises unless:
 - 1. The dog is out of control and the handler does not take effective action to control it or
 - 2. The dog is not housebroken.
 - When there is a legitimate reason to ask that a service animal be removed, staff must offer the person with the disability the opportunity to obtain services without the animal's presence.
